Contents to Volume 11

B. Saletu, P. Anderer and J. Grünberger (Austria)
Topographic brain mapping of EEG after acute application of ergotalkaloids in the elderly 1

G. Paolisso, G. Marrazzo, S. De Riu, S. Sgambato, M. Varricchio and F. D'Onofrio (Italy)
Insulin resistance as cause of increased blood pressure in the elderly: effects on intracellular ion contents 23

V.V. Frolkis, S.A. Tanin, V.I. Marcinko and K.K. Muradian (U.S.S.R.)
Effects of hormones on the fast axoplasmic transport of substances in ventral horns of the spinal cord in rats of different ages 33

T. Machida, M. Miyatake and C.F.A. van Bezooijen (Japan, The Netherlands)
Age-related changes in distribution of cytochrome P-450 in the hepatic lobule of the rat 43

S.M. Kuznetsova and M.Y. Zaritskaya (U.S.S.R.)
Heteromorphism of chromosome 1, 9 and 16 homologues in high- and medium-longevity level regions 53

E. Gräsel, S. Cameron and S. Lehrl (F.R.G.)
What contribution can the Hachinski Ischemic Scale make to the differential diagnosis between multi-infarct dementia and primary degenerative dementia? 63

H. Katsuki, K. Ishihara, A. Shimada, T. Takeda and M. Satoh (Japan)
Age-related deterioration of long-term potentiation in the CA3 and CA1 regions of hippocampal slices from the senescence-accelerated mouse 77

G.D. Prell, J.K. Khandelwal, R.S. Burns, P.A. LeWitt and J.P. Green (U.S.A.)
Influence of age and gender on the levels of histamine metabolites and *pros*-methylimidazoleacetic acid in human cerebrospinal fluid 85

Announcements 96

C. Pieri, R. Recchioni, F. Moroni, F. Marcheselli, M. Falasca and L. Piantanelli (Italy)
Food restriction in female Wistar rats. I. Survival characteristics, membrane microviscosity and proliferative response in lymphocytes 99

C. Pieri, F. Moroni, F. Marcheselli, M. Falasca and R. Recchioni (Italy)
Food restriction in female Wistar rats. II. β-Adrenoceptor density in the cerebellum and in the splenic lymphocytes 109

C. Pieri, M. Falasca, F. Moroni, F. Marcheselli and R. Recchioni (Italy)
Food restriction in female Wistar rats. III. Thermotropic transition of membrane lipid and 5′-nucleotidase activity in hepatocytes 117

G. Paolisso, M. Varricchio and F. D'Onofrio (Italy)
Glucose intolerance in the elderly: an open debate 125

S. Travali, G. Carnazzo, A.M. Distefano, P. Manciagli, C. Cosenza, E. Fidone, S. Petralia, A. Bernardini, L. Motta and F. Stivala (Italy)
Expression of cell cycle-dependent genes and proliferative state of lymphocytes in aging 133

M. Di Gennaro, A. Sgadari, M. Pahor, R. Bernabei and P.U. Carbonin (Italy)
Increased propensity of the aged myocardium to develop calcium-related electrophysiological alterations 141

A. Herlitz and L. Bäckman (Sweden)
Recall of object names and colors of objects in normal aging and Alzheimer's disease 147

V. Kumar and E. Giacobini (U.S.A.)
Use of agraphia in subtyping of Alzheimer's disease 155

M. Thorslund and B. Wärneryd (Sweden)
Surveying the elderly about health, medical care and living conditions. Some issues of response inconsistency 161

Announcements 174

I. Zs.-Nagy (Italy)
Chemistry, toxicology, pharmacology and pharmacokinetics of idebenone: a review 177

I. Semsei, K. Nagy and I. Zs.-Nagy (U.S.A., Hungary, Italy)
In vitro studies on the $OH^{\cdot}$ and $O_2^{-\cdot}$ free radical scavenger properties of idebenone in chemical systems 187

M. Murakami and I. Zs.-Nagy (Japan, Italy)
Superoxide radical scavenging activity of idebenone in vitro studied by ESR spin trapping method and direct ESR measurement at liquid nitrogen temperature 199

I. Zs.-Nagy and R.A. Floyd (U.S.A.)
ESR spin trapping studies on the $OH^{\cdot}$ free radical reactions of idebenone 215

K. Nagy, L. Horváth and I.Zs.-Nagy (Hungary)
Effects of idebenone on the composition of brain synaptosomal membranes of rats 233

I. Zs.-Nagy, M. Ohta and K. Kitani (Japan)
The effect of idebenone on the lateral mobility of proteins in hepatocyte plasma

membrane of old rats as revealed by fluorescence recovery after photobleaching (FRAP) technique using an endogenous label 243

Gy. Lustyik, Z. Szállási, F. Jeney and I. Zs.-Nagy (Hungary)
The effect of idebenone on the passive K^+ and Rb^+ permeability of the brain cell membranes of CFY rats as revealed by the Rb^+-discrimination ratio 251

C. Bertoni-Freddari, V. Zs.-Nagy, T. Casoli, P. Fattoretti and I. Zs.-Nagy (Italy)
Electron microscopic morphometric studies on the effects of idebenone on the synaptic remodelling activity in the hippocampus and cerebellum in normal old as well as in vitamin E-deficient adult rats 259

Gy. Lustyik, Z. Szállási, T. Casoli and I. Zs.-Nagy (Hungary, Italy)
Effects of idebenone on the intracellular water and dry mass content as well as of the intracellular monovalent ion concentrations of brain cortical cells of SHRsp rats as revealed by X-ray microanalysis 267

Gy. Lustyik, K. Nagy, Z. Szállási and I. Zs.-Nagy (Hungary, Italy)
The effect of idebenone on the total content and solubility characteristics of proteins and osmometric behavior of the intracellular mass in brain of CFY and SHRsp rats 277

K. Nagy and I. Zs.-Nagy (Hungary)
The effects of idebenone on the superoxide dismutase, catalase and glutathione peroxidase activities in liver and brain homogenates, as well as in brain synaptosomal and mitochondrial fractions 285

I. Semsei, R.G. Cutler and I. Zs.-Nagy (Hungary)
The effects of idebenone on DNA and RNA contents as well as synthesis rates of total and poly(A)$^+$RNA in brain of normal, old C57BL/6J mice and in experimental partial cerebral ischemia of rats 293

Gy. Lustyik and J.J. O'Leary (U.S.A.)
Effects of idebenone on mitogen-induced proliferation of human lymphocytes 307
